Danilo Gomez is a global leader in finance and human resources. He gained the majority of his experience working with international companies in a variety of industries including Consumer Goods, Real Estate, Construction, Telephone Services, Banking and External Audit.

Danilo served on the board of numerous organizations and has worked with CEOs and owners in the implementation of key projects like SAP, S&OP and Succession Planning. Danilo was first introduced to Adizes methodology when working as the Chief Human Resources Officer of a global consumer goods organization that began implementing Adizes.

As the project leader of the Adizes program within the organization, Danilo was intimately involved with its deployment. After successfully launching and implementing Adizes in this company, he decided to join Adizes as a full-time associate. Since then, Danilo has continued his rigorous training to deepen his understanding of Adizes and capabilities.

Danilo's experience of being on the receiving end of the Adizes methodology helps him integrate every one of his client engagements more smoothly. He has a hands-on style of delivery and provides in-depth coaching and support to the individuals charged with leading the Adizes deployment within client organizations.

Danilo is a trained C. P. A. and holds master's degrees in finance and Human Resources. He has successfully completed several development programs in leadership and management. Danilo is fluent in Spanish and English, and lives in Monterrey, Mexico with his family.
