David O'Farrill is a young Mexican entrepreneur, Biotechnology Engineer from Tecnológico de Monterrey campus Guadalajara, and owner of the successful companies Parco, Fixep, Barrio Mexico and O'Farrill Real Estate, in the city of Guadalajara.

He came to meet Dr. Ichak Adizes by pure chance, and fell in love with the simplicity but effectiveness of his Methodology, coming to work at the Adizes Institute and Dr. Adizes' personal office reporting to him directly as his Chief Executive Coordinator; traveling with him in his World Tours and learning from his vast experience.

David has started formal training in the Adizes Methodology as of January 2019 and is excited to work with other associates and Adizes clients as one of the Adizes Institute's youngest starting Associates.

He lives in Guadalajara, Jalisco; and passes his free time playing piano, reading, satisfying his curiosity learning a diverse set of subjects, and enjoying the gastronomical richness Mexico has to offer.

David works in Spanish, English and German fluently.
